		acronyms used in its Past Performance Proposal. The list should be comprehensive without including extraneous acronyms. All information submitted shall be current, specific, complete, and meet the requirements of the solicitation.
3	<p>L.16, pg 134</p> <p>Near the end of Section L.16, “List of Acronyms” is shown, followed by “4. Deviations and Exceptions” implying that the acronym list is to appear in the proposal PRIOR to the list of deviations and exceptions</p> <p>Is it acceptable for the List of Acronyms to either appear immediately following the Table of Contents or at the very end of the volume following the section for Deviations and Exceptions?</p>	Yes, Offerors can provide the required list anywhere within the appropriate proposal volume.
4	<p>L.18(a), page 142</p> <p>This section states in part “Prime Offerors shall furnish the information requested below for all of your most recent contracts (completed and ongoing) for similar efforts with a minimum average annual cost/fee incurred of \$5M that...”</p> <p>The \$5M minimum cost/fee threshold will preclude the submission of past performance references that are of the same scope and complexity of CISTO. Would the government consider revising \$5M back to the value of \$2.5M that was in the Draft RFP?</p>	The Government believes the threshold established in the Final RFP is reasonable and appropriate for the CISTO Requirement. Therefore, the threshold will remain unchanged at \$5M.
5.	<p>L.16.1, pg 117 and L.16.3, pg 118</p> <p>The text in both of the referenced sections states “Offerors shall include Contract Attachment M as part of the model contract in the Business Proposal.” Nowhere in the instructions for the Offer Volume is “Attachment M” or a “model contract”</p>	The instructions at L.15 state that the offeror should return Sections B-K of the Solicitation as part of the offer volume. This submission as part of the offer volume, is the model contract. Under Clause J.1 of the model contract, Attachment M is the Contractor Proposed Enhancements or Efficiencies.

The Government will not add the suggested exclusion from the prescribed language.</p>
